

I am an over the road truck driver and drive mostly at night. It is extremely helpful to have traffic and weather on xm so that I know of potential problems that may lie ahead. Also since I am not home very much I really enjoy all of the news channels such as fox,cnn,cnbc,msnbc,etc. None of this is available on am or fm and even if you find something since you are traveling so you soon lose the signal.

Sincerely,

D.C.WatkinsIII
